

RESIDENTIAL PARKING

What is a Residential Parking Scheme?

A Residential Parking Scheme allows residents and businesses to apply for permits to park in a dedicated permit holders only parking bay marked out on a road.

What times can a scheme operate?

Most schemes in Stoke-on-Trent operate Monday to Saturday 8am - 9pm. But operation times can vary depending on circumstances in your area.

Who can park in the Permit Holders Only bays?

Any motor vehicle below 3.5 tonnes gross laden weight which displays a valid parking permit. Unfortunately a specific space cannot be reserved on the road outside individual properties. The scheme will operate on a 'first come first served basis'. As long as a vehicle displays a valid permit associated to your street, they are allowed to park where they like.

How much are parking permits?

Permits are issued to households/businesses that have paid the relevant one-off joining fee. Current permit prices are as follows:

- Resident permit £15 per year – up to 2 per household
- Visitors Permit £22 per year – up to 2 per household
- Business Permit £30 per year – up to 4 per business

Senior Citizens can apply for one Visitors Permit free for their property.

Who enforces the scheme?

The scheme is enforced by our Parking Attendants on a regular basis. Any vehicle not displaying a valid parking permit will be liable for a £60 Penalty Charge Notice. To report illegal parking in a permit holders only bay contact our Parking and Security Group on 01782 232091.
